ABHISHEK

Alwar, Rajasthan, India — +91-9358509567 — achandrawal33@gmail.com — github.com/abhi09567 — linkedin.com/in/abhishek

EDUCATION

National Institute of Technology, Patna July 2020 – May 2024
Bachelor of Technology in Electrical Engineering
GPA: 7.55/10.0

Gurukul Public Sr. Sec. School, Alwar April 2017 – May 2018
Senior Secondary Education, RBSE
Percentage: 82.60/100.0

PROFESSIONAL EXPERIENCE

SmartplayerAI April 2025 – Present
Data Analyst
– Drove a 20% improvement in AI model prediction accuracy by providing key insights to product and engineering teams.
– Engineered scalable data pipelines to extract and process over 1 TB of data from cricket video frames, enabling AI model training.
– Conducted in-depth Exploratory Data Analysis (EDA) with Python (Pandas, NumPy) to analyze key metrics like ball speed, swing, and trajectory, generating critical insights that directly informed strategic product decisions.
– Automated real-time video data pipelines using Python to ensure consistent data quality and accelerate data availability for engineering and product teams.

Collegedunia June 2024 - September 2024
Digital Content Analyst
– Streamlined data scraping of education-related content using BeautifulSoup and OCR, reducing manual data collection time by 40%.
– Engineered and executed data cleaning and standardization processes using Pandas and SQL, guaranteeing high data integrity and accuracy across diverse APIs and databases.
– Designed and built Excel dashboards to provide weekly monitoring of over 15 key business KPIs, delivering actionable insights that informed strategic decisions and business direction.

PROJECTS

Customer Churn Prediction Analysis
– Developed a predictive model using Python and scikit-learn to forecast customer churn with an accuracy of 85%, identifying at-risk customers based on transaction history.
– Designed a dashboard in Power BI to visualize key KPIs like churn rate and customer lifetime value, providing data-backed recommendations that could increase customer retention by 15%..

Sales Performance and Forecasting Dashboard
– Leveraged advanced SQL to transform and aggregate a large, multi-source sales dataset of over 2 million records, enabling comprehensive analysis and strategic reporting.
– Crafted a predictive Tableau dashboard to track sales trends and deliver sales forecasts to stakeholders, identifying key growth opportunities and leading to a potential 10% increase in revenue.

TECHNICAL SKILLS

Programming Languages: Python, SQL, Java, JavaScript.
Data Analysis & Visualization: Power BI, Tableau, Excel, Jupyter Notebook.
Databases: MySQL, Supabase.
Statistics & Machine Learning: Statistical Analysis, Regression, Classification, Time-Series Forecasting.
ETL & Automation: ETL Processes, Data Warehousing, Data Pipelines, Version Control (Git).
Tools & Platforms: GitHub, Postman, Google Colab.

ACHIEVEMENTS

– Solved over 500 Data Structures and Algorithms (DSA) problems on platforms like LeetCode and GeeksforGeeks.
– Skilljar Postman API Fundamentals Student Expert.
– NPTEL Certified in Python-based Programming with a score of 83%.
